

2Kg Acoustic Membrane

Maximum Noise Reduction at Minimum Mass!

NEW: This innovative material utilises nano vacuum technology producing a revolutionary acoustic membrane.

THIN: At only 1.2mm thick this membrane provides minimum loss of room space for maximum noise reduction.

LIGHTWEIGHT: At only 2Kg/ m² it's easy to handle and carry. Work can now be carried out by a single person.

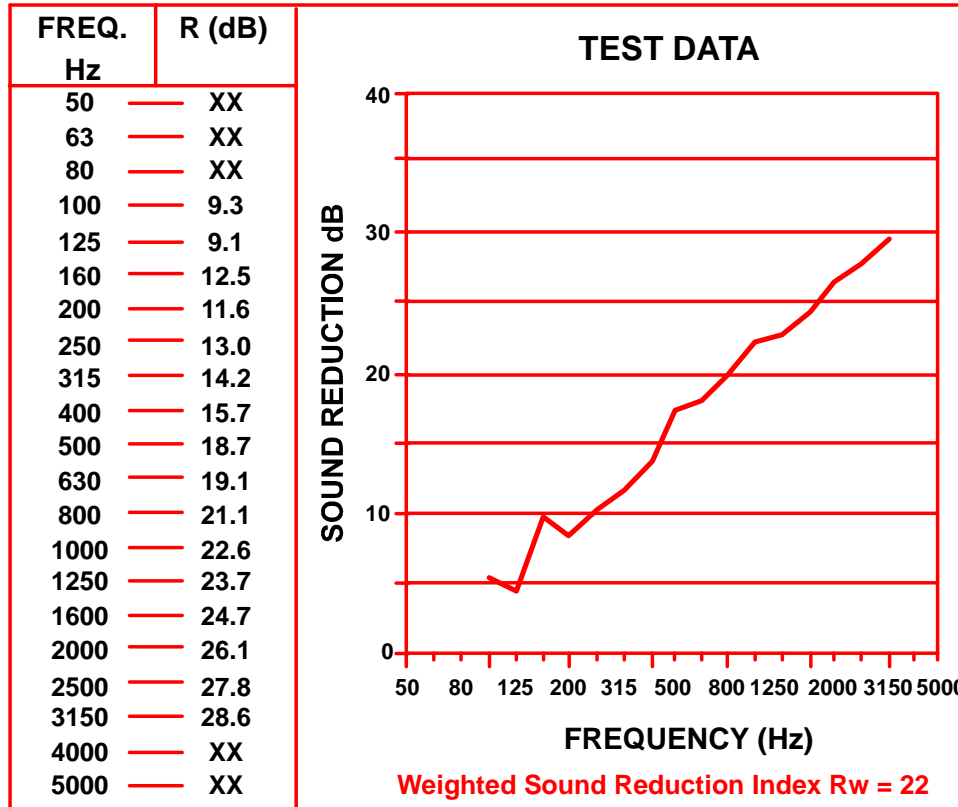

FLEXIBLE & VERSATILE: Easily folds and bends round corners and edges to protect against flanking sound.

EAST TO CUT & INSTALL: Simple to work with – no fibres or bulky mineral wool making for a quick, easy, home improvement product.

ACOUSTIC PERFORMANCE: High sound reduction performance (22dB Rw) for minimal thickness especially when used in conjunction with other materials.

DIVERSITY: Can be used in both new build and refurbishment work for domestic houses, flats, hotels etc.

ROLL SIZE: 10m x 1500mm
